Education

Massachusetts Institute of Technology
S.B. in Computer Science and Engineering

Cambridge, MA
June 2015

- ◆ Coursework: Algorithms, Software Construction, Computer Systems Engineering, Computation Structures, Artificial Intelligence, Computer Security, Web Programming, Computational Photography

Experience

Integral Ad Science
Software Engineer

New York, NY
Nov 2015 - Present

- ◆ Worked on a small agile team developing, testing, and maintaining a range of video ad solutions from html5 video player ad integrations to video viewability detection.
- ◆ Collaborated with different teams across the technological stack to fix and maintain a wide range of features of our ad software solutions.
- ◆ Developed bot detection algorithms and other features for ad fraud prevention.

La Caixa
Software Analyst

Barcelona, Spain
Jun 2014 - Aug 2014

- ◆ Tested and analyzed potential security software to identify optimal solution in detecting real-time robot intrusion.
- ◆ Researched multiple cross-platform development software to find most efficient app implementation solution.

XPO Logistics
Software Development Intern

Cambridge, MA
Jan 2014 - Feb 2014

- ◆ Improved UI and usability of Freight Optimizer website through CSS and Javascript programming

Qualcomm
Software Development Intern

San Diego, CA
Jun 2013 - Aug 2013

- ◆ Built Python GUI tool that expedites the creation of software change requests through API calls and sophisticated data manipulation.
- ◆ Implemented enhanced data analysis features of a Data Miner in C that improves the accuracy of RF software implementations.

Labatt Food Service
Software Development Intern

San Antonio, TX
Jun 2012 - Aug 2012

- ◆ Built web application using ASP.NET to analyze data, determine key limitations of forecast system, and develop algorithmic hypotheses.
- ◆ Implemented forecasting algorithms in VB.NET to accurately predict product demand and overcome pitfalls of previous system.

Skills/Interests

Technical:	Javascript, Python, Swift, Java, C++, VB.NET, iOS/Android, Node.js, PHP, HTML, CSS, Angular.js, MongoDB, MATLAB, L ^A T _E X
Academic:	Web Development, Computer Security, Mobile Development
Language:	Fluent in English, Spanish, and Portuguese
Extracurricular:	Theta Chi Fraternity, Relay For Life, Soccer
